KEEPING OUR CONNECTIONS – UPDATE 5

Thursday June 18 2020

Dear Community,

What a delight it has been to have all the children back at school for face-to-face learning & teaching.

The excitement in the school last week, when our Year 3, 4, 5 & 6 students returned, was wonderful to see & hear.

The challenges that the eleven weeks of learning at home presented are in the past now but they have taught us much about ourselves and the way we learn & teach.

We are all now living a 'new normal' and as our lives progressively return to that 'new normal', I will be asking you all at some stage, to reflect on and think about what has been, what did & did not work and what is the best way forward for our community.

As I said in 'Keeping Our Connections - Update 4', we need to take our time to not rush back into what was but rather we need to allow ourselves time to reconnect, to reconsider and to reflect, on what is best & worthwhile for all of us in our 'new normal'.

Your children have developed their independence, their organization skills and their ability to cope with unexpected change.

I want to again say, "Thank you" for all your support, encouragement and commitment, in meeting the challenges this 'virus' presented to our St. Paul's 'family', our local community, our great country and to the world in which we live.

Denis.

Dear Parents, Guardians and Carers,

Re: Nationally Consistent Collection of Data on School Students with Disability (NCCD)

Every year, all schools in Australia participate in the Nationally Consistent Collection of Data on School Students with Disability (NCCD). The NCCD process requires schools to identify information already available in the school about supports provided to students with disability. These relate to legislative requirements under the *Disability Discrimination Act 1992* and the Disability Standards for Education 2005, in line with the *NCCD guidelines* (2019).

Information provided about students to the Australian Government for the NCCD includes:

- year of schooling
- category of disability: physical, cognitive, sensory or social/emotional
- level of adjustment provided: support provided within quality differentiated teaching practice, supplementary, substantial or extensive.

This information assists schools to:

- formally recognise the supports and adjustments provided to students with disability in schools
- consider how they can strengthen the support of students with disability in schools
- develop shared practices so that they can review their learning programs in order to improve educational outcomes for students with disability.

The NCCD provides state and federal governments with the information they need to plan more broadly for the support of students with disability.

The NCCD will have no direct impact on your child and your child will not be involved in any testing process. The school will provide data to the Australian Government in such a way that no individual student will be able to be identified – the privacy and confidentiality of all students is ensured. All information is protected by privacy laws that regulate the collection, storage and disclosure of personal information. To find out more about these matters, please refer to the [Australian Government's Privacy Policy](https://www.education.gov.au/privacy-policy) (<https://www.education.gov.au/privacy-policy>).

Further information about the NCCD can be found on the [NCCD Portal](https://www.nccd.edu.au) (<https://www.nccd.edu.au>).

If you have any questions about the NCCD, please contact the school.

Kind regards

Denis J. Daly
